SmartBase -Timber Connector Plate

SmartBase -Paving Connector Plate (flush)

SmartBase Slope Correction Shoe
2.0mm up to 10 degrees

SmartBase Adjustable Pedestals

- The adjustable pedestals are suitable for timber and paved terraces in various installation heights.
- The new series of adjustable pedestals consists of three adjustable pedestals of different heights
- Their assembly height can be altered with the with the extension rings.
- From now on, we can offer you a modular system: innovative, universal, versatile and user-friendly!
- The new series of adjustable pedestals is completed by two different types of adapter plates:
- Timber connector plate – for classic timber substructures
- Paving connector plate – for laying stone slabs

SmartBase
30-53mm Adjustable
Decking / Paving Pedestal.

Properties / Advantages

- High load bearing capacity of up to 8.0 kN / foot
- Ground assembly heights of 3.0–11.7 cm
- Height can be increased with extension ring
- Quick and easy assembly
- Stepless height adjustment
- Resistant to weather, UV exposure, insects and rot
- This allows you to adapt the adjustable pedestals to your individual requirements and local conditions in a quick and straightforward manner.
- The quoted load-bearing capacities represent recommended values. With these loads, the adjustable pedestals only deform by approx. 2 mm.
- The load-bearing capacity before actual breakage is several times higher.

QUALITY PRODUCTS

SMARTBOARD™

GREASE AND OIL
STAIN REMOVER

Treats grease and stubborn oily stains on composite and timber decking. Just spray on and brush

INSTRUCTIONS: Shake well before use. Holding can upright, spray directly onto the product at a distance of about 10 - 25 cm so that stain is completely covered.

Apply liberally. Allow to work for at least 10 minutes until the product is completely dry then brush or wash off with luke warm soapy water. If necessary repeat the operation on tougher stains.

Store only in the original container in a dry, cool and well ventilated place away from direct sunlight.

IMPORTANT: Always test on hidden or inconspicuous area of deck first to ensure colour is not adversely effected. Over exposure may result in a slight discolouration or lightening of timber. Complete stain removal cannot be guaranteed. The sooner stain remover is used on fat stained decking the greater the chance of removal. Fat stains may become more difficult to remove the longer they are left untreated and deeper they penetrate any absorbent material.

DANGER: Repeated exposure may cause skin dryness or cracking. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes serious eye irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use.

Wear protective gloves/protective clothing/eye protection/face protection. Protect from sunlight.

Do not expose to temperatures exceeding 50°C/122°F.

CONTAINS: Acetone; Propan-2-ol; Cyclohexane.
